

NASA Archives Program Skylab Program Subject Files Collection

Series Title: **Skylab Program Subject Files**

Extent: 18 feet, 6 inches

Box Count: 55 boxes

Inclusive dates: 1959 – 2007

Location: 5/2/3 – 5/3/4

Transfer #:

Accession Number:

Disposition Authority:

Media Type: Textual, photographic, and electronic

Access Restrictions

None.

Use Restrictions

Most government records are in the public domain, however, this series includes commercial materials, such as newspaper clippings, that may be subject to copyright restrictions. Researchers should contact the copyright holder for information.

Copy Status: Research, Use and Preservation

Preferred Citation

Skylab Program Subject Files Collection, NASA Headquarters Historical Reference Collection.

Series Description

This series consists of Skylab program files collected by the National Aeronautics and Space Administration (NASA) Headquarters archivists for inclusion in the Historical Reference Collection. Records contain materials collected from the Office of Manned Space Flight (OMSF), contractor historians, and NASA retirees reflecting and supporting policy studies and analysis; files on program development; correspondence, and memoranda between NASA officials, private sources, and other U.S. Government agencies; records of official meetings; oral histories and speeches given before various organizations. Specifically, this series contains correspondence files; reports; meeting files; speeches; oral histories; congressional briefings and budget files; photographs; long duration space flight; Skylab

Last Updated April 22, 2019

program management; Skylab 1 mishap and recovery; Skylab reentry; Skylab 2 mission; and Apollo Applications Program (AAP).

General Notes

NASA official records relating to the Skylab program are held in the National Archives at College Park, MD (HQ); Atlanta, GA (MSFC, KSC, MTF, and MAF); and Ft. Worth, TX (MSC/JSC).

Keywords: Long duration space flight; Skylab program; Skylab 1; program management; Skylab reentry; Apollo Applications Program (AAP); Skylab 2 mission; Skylab reentry; Apollo Telescope Mount (ATM); risk management; Skylab 2 crew; earth observation; Skylab 3 mission; Skylab 4 mission; NASA budget; procurement; biomedical research; Skylab astronauts; space stations; space sciences; Skylab 3 crew; John H. Disher; Charles P. ("Pete") Conrad, Jr.; Joseph P. Kerwin; Paul J. Weitz; Gerald P. Carr; Alan L. Bean; Owen K. Garriott; Edward G. Gibson; Jack R. Lousma; William R. Pogue; and James C. Fletcher.
